

Patriot Ninja

The 'Smart Injector'

+ Battery Operated
+ Cord Free

0.5
microns

The Patriot Injector system is an innovative, easy-to-use flushing and spraying tool. Utilizing atomizing technology and a high air stream in the unit, the Patriot can spray a mixture of chemical and carrier in droplet sizes of 0.5 microns, which is suitable for even the most sensitive areas, including food handling premises.

Patriot Ninja with battery attached and connected

Patriot Ninja with battery connectors and 3amp HR charger

Patriot Ninja

The 'Smart Injector'

Features:

1 Customized dual port spray handle

2 Detachable front wand adaptor and chemical valve

3 Lightweight at only 7.48kg and 11.5" x 8" x 10"

4 Pressure gauge shows the pressure reading in the tank

5 Pressure regulator regulates air pressure

6 Tank cover with pressure release valve

Benefits:

- Droplet sizes of 0.5 microns create a 'dry surface spray effect' which is suitable for even the most sensitive areas.
- Comes with 26ft coiled tubing, detachable from the machine and the handle, making replacement of worn out tubes hassle-free.
- Wand can be changed without tools with the unique interchangeable wand adaptor.
- Equipped with a light-weight J-curve wand and a micron droplet range of up to 1m, it can target pests in cracks, crevices and even in deep void harborages.
- Equipped with a chemical shut off valve, which allows replacement of parts without loss of chemical, effectively stopping contamination and dermal absorption.
- Equipped with a 70.72 oz stainless tank, approximately 250% bigger than others.

Power:

- Runs on a 12 volt 20 AMP POLY-Lithium Battery (2.5 hour run time) or cord.
- Also operates corded globally from 85 VAC - 265 VAC with IEC-320 connector.
- The 12 volt DC pump meets and exceeds the performance of the high flow head 110V standard compressor
