

Pioneer Electrical ULV Fogger

World's first cordless,
battery-powered
knapsack ULV fogger.

Feature

- * Freedom from power cables and power outlets.
- * Equipped with a precision regulating valve that lets you adjust flow rate and particle size.

90% of droplets produced are under 20.00 microns in diameter. Droplets in this size range can linger in the air for over 4 hours, perfect for killing flying insects.

A flexible hose with handle on nozzle lets you spray into hard-to-reach areas such as between kitchen cabinets, under carpets, above ceilings, and into ducts. **Optional Spraying Nozzle Configuration** Wide-angle spraying swirl nozzle, suit for short-distance spraying.

Small-angle spraying swirl nozzle, suit for long-distance spraying. Ultra Low Volume fogger dispenses both water- and oil-based pesticides, fungicides, disinfectants, miticides, poultry vaccines, and odor neutralizers.

Our ULV foggers have been widely used by customers in both indoor and outdoor environments:

- * Living: homes, hotels, ...
- * Offices: hospitals, schools, animal care facilities, ...
- * Industrial: greenhouses, food processing plants, warehouses, dairy and poultry farms, ...
- * Public health: disease control, malaria, ...

Technical Specifications

Electrical Motor	450W, 24 V, DC Brushless Motor
Fogging Nozzle	Wide-Angle Spraying Swirl Nozzle
Liquid Flow Rate	0-27 L/h , Adjustable
Tank Capacity	5 L/1.3Gal
Dimensions(L×W×H)	380 mm ×208 mm ×490 mm
Weight, empty	12.7 kg (Machine 8 kg + 1 Battery 4.7 kg)

Safety lock of battery secure

Indicative LED of battery level

Rechargeable battery with flexible charging time

Adjustable orifices size for controllable flow rate

Easily and friendly controllable button on droplets control & Lock up button
